

TRX 160, 140

"By far the best handling glider I've ever flown. Also, the most advanced technology I've ever seen in a glider."
Jersey Rossignol – Aerobatics Pilot

The TRX has advanced the sport of hang gliding throughout the world. The graphite frame offers high-tech performance and light weight. The custom TRX hardware means safety and easy set up. The TRX sail was designed to expand useable speed range, reduce drag and provide a high lift coefficient. Combined with a high aspect truncated planform, you have the finest high performance hang glider made today!
